Subject: Meeting tomorrow

Hi Rick,

Looking forward to our meeting tomorrow. What number should we call when we get to the building? Where are we meeting? Lisa Ortego and Bob Graney will be with me. The three major topics I would like to make sure we get to are:

1. Agreement on overall topic of the workshop – discussion of the workshop proposal (most important)
2. Agreement on dates and location (proposed dates are October 23-24 at NCSU campus)
3. Short discussion on the proposed general workshop format including a public portion of the program.
4. Proposed formation of a small organizing committee including an EPA representative.
 - a. Proposed organizing committee: George Cobb (Baylor University – academia, served on EPA SAPs, former SETAC president, Chair of Environmental Science Department), Laura McConnell (Bayer-chemical industry), EPA representative (perhaps Keith Sappington as pyrethroid expert?), USDA representative (working to contact Sally on this), Matt Kearns (Waterborne –CropLife Environmental Risk Assessment Committee member).

Best regards,
Laura
